

MENUBAR 4QLIKSENSE

MENUBAR improves Qlik Sense and adds customizable navigation elements to your preferred BI tool - restoring the features of QlikView within your QlikSense installation. Join thousands of MENUBAR users now.

Allows for vertical and horizontal buttons and selections (fields, drill-down dimensions, master dimensions and variables) as well as unlimited trigger based actions. In addition, you can share apps with the current selection with a single click, as well as conveniently chain documents including current or changed selections to navigate between apps.

The screenshot shows a Qlik Sense dashboard with a custom navigation menu on the left labeled 'MENUBAR'. The main area displays a table titled 'P&L Alpha Corp Amounts in mUSD, Δ2016%' comparing 2016 and 2017 data. The table includes columns for 2016, 2017, Δ2016, Δ2016%, Rating, and Comment. The 'Net Result' row shows a change from -6.6 in 2016 to -9.4 in 2017, with a Δ2016 of -2.8 and a Rating of 'Acceptable'. A right-hand panel shows the 'Dimensions' list with 'D_ProdCat' selected, and a 'Text layout' section with 'Multi' selected.

	2016	2017	Δ2016	Δ2016%	Rating	Comment
